

SUSTAINABLE FARM FAMILIES ALBERTA

PARTICIPATION MAKES A DIFFERENCE TO FARMERS

90% believe the program's health and safety information is useful and relevant to their farm operation.

89% understand the link between farm safety and their own health.

96% will complete the farm safety activities they learned in the program.

96% think the program is a good investment of their time and will attend next year's workshop.

92% recommend SFF Alberta to other farmers.

"We felt like we made lots of changes with diet – more fruits and veggies, eating more regular meals, healthy snacks."

"Equipment... is not the dangerous part – it's the anxiety in the mind that creates the problem"

"I set up standard operating procedures, outfitted main equipment in fields with first aid kits and fire extinguishers, and helped other farmers in the area to make safety changes"

"So busy with everything else, this could get put on back burner. I needed an extra push to get a \$30 fire extinguisher that could save a million dollars in equipment."

"I encourage people to go, it's a good thing..."

Percentages are an average of the results from 201 farmers

SFF ALBERTA ACTIVITIES BETWEEN NOVEMBER 2015 AND FEBRUARY 2016:

 **13** WORKSHOPS

 **220** RESOURCE KITS

 **8** COMMUNITIES

 **5** COLONIES

 **104** MEN

 **97** WOMEN

 **201** PHYSICAL ASSESSMENTS

 SFF Alberta is building strong relationships with farmers across Alberta.
