

Farm Safety for Children DVD - Content Details

The Farm Safety for Children DVD is a versatile educational tool developed for rural children. The average farm is unique, as the family and the farming operation share space and exist together.

Often children are not fully aware of the many potential hazards presented by rural living. Increasing their awareness and ability to make informed safety decisions is extremely important and was the reason this educational tool was developed.

This education tool presents farm safety information in the following order:

- ATV Safety
- Chemical Safety
- Electrical Safety
- Farm Machinery Safety
- Grain Handling Safety
- Livestock Handling Safety
- Hearing Safety
- Oil & Gas Facility Safety
- Water Safety
- Testimonials

Single copies of the Farm Safety for Children DVD are available at no cost from our office. 403 752-4585
Multiple copies are also available at a cost of \$5.50/copy.

In the past 15 years, individuals between the ages of 0 to 18 have accounted for more than 20% of the farm-related fatalities in Alberta. Each young life lost is a tragedy with ripples reaching out for generations.

Investing in children is a wise investment in the future of the province. Influencing their personal safety attitudes and actions now will pay significant dividends moving forward, as they become our next generation of primary agricultural producers.
